

Article 1 — Identity and Purpose

1.1 Name

The Club is named the **Robotics & AI Club of EST Safi**. It may be referred to in shortened form as “Robotics & AI Club” or “**RAIC**.”

1.2 Host Institution and Governance

The Club operates under the authority and patronage of the *École Supérieure de Technologie de Safi*, part of *Université Cadi Ayyad*, which grants official approval for its establishment. The Club is academically supervised in the first instance by **Professor Said El Abdallaoui**, with the support of co-supervisors. Its executive structure is composed of a President and a Vice President. The Club is not a legally independent entity.

1.3 Mission

The Club exists to cultivate practical competence in robotics and artificial intelligence among students of EST Safi through hands-on projects, peer learning, competitions, and public outreach. The Club is a space for building, teaching, and shipping real work — not a social organization, not a lecture series, and not a credential.

1.4 Values

The Club upholds five values, in order of precedence when they conflict:

1. **Safety** — of people first, of equipment second.
2. **Honesty** — in code, in reporting, in attribution, and with each other.
3. **Learning** — we prioritize members who don’t know yet over those who already do.
4. **Delivery** — we finish what we start, or we say publicly why we stopped.
5. **Respect** — for every member regardless of background, gender, religion, field of study, or skill level.

1.5 Political and Religious Neutrality

The Club takes no political, religious, or partisan positions, and no member may speak on such matters in the Club’s name.

Article 2 — Membership

2.1 Eligibility

Membership is strictly limited to students currently enrolled at the *École Supérieure de Technologie de Safi*. Eligibility is contingent upon maintaining active student status throughout the academic year. Former students or graduates are not eligible for membership under any category.

2.2 Application

Prospective members apply through the official Club application process. The Executive Council reviews applications on the basis of motivation and availability, not prior technical skill.

2.3 Admission

A member is admitted once they (a) have been informed of and have read this charter, and (b) are added to the official member roster for the current academic year. Assignment to a cellule is optional and not a condition of membership.

2.4 Continuity of Membership

Membership remains valid throughout the member’s period of enrollment at the *École Supérieure de Technologie de Safi*. A member who progresses from one academic year to another retains

their membership without the need for renewal or re-registration, provided they maintain active student status.

2.5 Rights of Active Members

- Participate in all Club activities, projects, and competitions.
- Access Club equipment and workspace during declared hours, subject to safety training.
- Vote in general assemblies and stand for election to any office they are eligible for.
- Propose projects, events, and charter amendments.
- Be represented fairly before the Executive Council in disciplinary matters.

2.6 Obligations of Active Members

- Uphold this charter and its values.
- Attend general assemblies and the activities of their cellule, barring legitimate cause.
- Return borrowed equipment in the condition received.
- Represent the Club honestly in all external communications.
- Notify their cellule lead if they must withdraw from a committed task.

2.7 Resignation

A member may resign at any time by notifying the President of the Club in person. Resignation takes effect immediately upon acknowledgment. The member must return all Club property in their possession on the same day of resignation.

Article 3 — Governance

3.1 Executive Council

The Club is led by an Executive Council composed of:

- Supervisor
- Co-Supervisor
- President
- Vice-President

The Executive Council is the decision-making body for all matters not reserved to the General Assembly.

3.2 Eligibility for Office

Candidates for Executive Council office must be active members, currently enrolled at EST Safi, and have been active in the Club for at least one full semester — except for the founding year, when this requirement is waived.

3.3 Term of Office

Executive Council members serve one academic year. No person may hold the same office for more than two consecutive terms. Exceptional continuity may be granted by General Assembly vote.

3.4 Elections

Elections are held annually, at a date announced at least 14 days in advance. Each office is filled by simple majority of active members present and voting. In case of a tie, a second round is held between the top two candidates.

3.5 Cellules

Work is organized into thematic cellules, each with a defined mandate. The current cellules are:

- **Executive Council** — strategy, external relations, final decisions
- **Organization Cellule** — logistics, scheduling, venue and resource management
- **Design Cellule** — visual identity, product design, user experience
- **Media Cellule** — photography, video, content production
- **Secretary Cellule** — documentation, meeting minutes, archives
- **Treasury Cellule** — finances, sponsorships, procurement
- **Communication Cellule** — social media, press, public announcements

The Executive Council may create, merge, or dissolve cellules as the Club's work evolves.

3.6 General Assembly

All active members constitute the General Assembly. It meets at least twice per academic year: once at the start (planning) and once at the end (review and elections). Extraordinary sessions may be convened by the President or by written request of at least one-third of active members.

3.7 Quorum and Voting

The General Assembly is validly convened if at least one-third of active members are present. Ordinary decisions pass by simple majority. Amendments to this charter require a two-thirds majority.

3.8 Vacancy

If an Executive Council office becomes vacant mid-year, the Council appoints an interim officer until the next General Assembly, which confirms or replaces them by vote.

3.9 Supervision

The Club operates under the oversight of one or more faculty supervisors designated by EST Safi. Supervisors may attend any Council meeting, must approve external partnerships and financial commitments above thresholds set in Article 5, and hold final authority in any matter affecting the school's reputation or safety.

Article 4 — Conduct and Discipline

4.1 Standards of Conduct

Members commit to treating one another with respect and to conducting themselves, on Club premises and in Club activities, in a manner that reflects well on the Club and on EST Safi.

4.2 Prohibited Conduct

The following are grounds for disciplinary action:

- Harassment, discrimination, or intimidation of any kind.
- Plagiarism or misrepresentation of others' work as one's own.
- Misuse, damage, or theft of Club or school property.
- Unsafe handling of equipment in violation of stated safety rules.
- Unauthorized use of the Club's name, logo, or communication channels.
- Disclosure of confidential Club information (unpublished partnerships, sponsor data, personal data of members).
- Conduct that exposes the Club or EST Safi to legal, reputational, or financial harm.

4.3 Disciplinary Procedure

Alleged violations are reviewed by the Executive Council. The accused member is notified in writing, has the right to be heard, and may bring one witness. The Council decides by majority.

Sanctions, in increasing order of severity, are:

1. Written warning
2. Suspension from Club activities for a defined period
3. Removal from a role of responsibility
4. Expulsion from the Club

Expulsion requires a two-thirds Council vote and is reported to the faculty supervisor.

4.4 Appeal

A sanctioned member may appeal once, in writing, to the faculty supervisor within seven days. The supervisor's decision is final.

4.5 Safety Violations

Any violation of written safety protocol results in immediate suspension of workspace access pending Council review, regardless of intent.

Article 5 — Resources and Finances

5.1 Sources of Funding

The Club may receive funds from EST Safi allocations, member contributions, sponsorships, grants, and proceeds from Club activities. All funds are received and held in the Club's name under the Treasurer's custody.

5.2 Use of Funds

Funds may only be used for purposes consistent with the Club's mission: equipment, events, competitions, training, and modest operational costs. No member may receive payment, reimbursement, or benefit from Club funds beyond legitimate documented expenses.

5.3 Approval Thresholds

Expenditures require the following approvals:

Amount (MAD)	Required Approval
Up to 500 MAD	Treasurer alone
500 to 2,000 MAD	Treasurer and President jointly
Above 2,000 MAD	Executive Council majority

Amounts may be revised by General Assembly vote.

5.4 Transparency

The Treasurer maintains a running ledger accessible to any active member on request. A full financial report is presented at the end-of-year General Assembly.

5.5 Equipment

Equipment owned or held by the Club is the property of the Club (or of EST Safi where so designated), never of individual members. Borrowing is tracked in writing. Members are responsible for returning equipment in working condition; willful or negligent damage must be made good.

5.6 Intellectual Property

Work produced by members in the context of Club activities — code, designs, documentation, media — is attributed to the Club and published, by default, under an open license to be chosen by the Executive Council, unless a specific project agreement establishes otherwise. Members retain moral authorship of their individual contributions and the right to list them in personal

portfolios.

5.7 External Partnerships

Sponsorships, collaborations, and partnerships are negotiated by the Executive Council with the faculty supervisor's approval. No member may enter into agreements in the Club's name without this authorization.

Article 6 — Communications and Public Representation

6.1 Official Channels

Only communication channels formally adopted by the Executive Council (website, verified social media accounts, official email) represent the Club. Personal accounts of members do not.

6.2 Speaking for the Club

Only the President, the Communications Lead, or persons expressly designated by them speak to the press, partners, or the public on the Club's behalf.

6.3 Use of Name and Logo

The Club's name and logo may not be used on personal projects, commercial ventures, or publications without Executive Council written authorization.

6.4 Personal Data

Member data collected by the Club (contact details, photos, application responses) is used only for Club purposes. It is not shared with third parties without the member's consent. Members may request access to, correction of, or deletion of their data at any time.

Article 7 — Amendments and Dissolution

7.1 Amendments

This charter may be amended by two-thirds majority of active members present at a General Assembly, provided the proposed amendment is circulated in writing at least 14 days in advance.

7.2 Dissolution

The Club may be dissolved by three-quarters majority of active members at a General Assembly convened specifically for that purpose, with at least 30 days' notice, and with the faculty supervisor's concurrence. Upon dissolution, all equipment, funds, and archives revert to EST Safi.

7.3 Precedence

In any conflict between this charter and school regulations or Moroccan law, school regulations and the law prevail.

Article 8 — Member Agreement

By signing below, I acknowledge that:

1. I have read and understood this charter in full.
2. I agree to uphold the Club's mission, values, and rules.
3. I understand my rights and obligations as a member.
4. I consent to the processing of my personal data for Club purposes as described in Article 6.4.
5. I understand that violation of this charter may result in disciplinary action up to and including expulsion.
